News and Gossip of the Week Among the Fraternities. DOINGS OF THE STATE SOCIETIES.

Interesting Masonic Notes-Resume of the Week Among the Pythians L-Facts and Figures for the Initiated.

Work on the Masonic hall at Seward suspendea during the winter is now being rapidly pushed forward, and the lodge will soon have a home of its own at that place. The hall is to be finished in good style, and will be as handsome and commodous a lodge room as any interior town in the state can boast of. A chapter of Royal Arch Masons is to be instituted as soon as the new hall is completed. The laying of the corner-stone of the new Masonic temple at Denver has impressed upon the News the march of Masonry, From King Solomon's temple whose wealth of stone and cedar and gold and precious stones excited the wonder and admiration of the barbaric world, down through the ages to Denver, the city of the modern world which has grown up during the generation, Masonry has marched. No organization is more ancient, more honorable; none has such a wondrous history; none so truly unites the dim and fading past with the live and progressive present. Its record is a demonstration of the truth of christian history; in its mystic rites and solemn ceremonies are the evidences of the faith and charity which rule the better nature of man, in all ages, in ail countries, and in every race.

The laying of the corner-stone of the nev Masonic temple in this city yesterday is an event which has more than an ordinary bearing upon the social life in our city, to say nothing of the coafidence which it portrays in the commercial and industrial future of Denver, of Colorado, and of the entire Rocky monntain section. It implies a belief in the permanence of our growth and the progress sive character of our future, which is as firm as the massive granite which, laid and dedi-cated by ancient and mysterious symbols, has become the corner-stone of the magnificent temple which is to become the future home of the order in the west,

The event was naturally one of importance to the order, and was very popularly made the occasion of more than usual ceremony and display. As the order marched in parade through the streets of the new city, where all the forces of modern civilization are crys talizing, and where influences are forming which are destined to exert far-reaching effects on the coming days of the republic, if not of the world itself, bearing the symbols of their rank, andthe republic, if not of the world itself, bearing the symbols of their rank, and clad in elegant regalia and splendid uniform, the prosession was a suggestion of the past, present and future, more impressive and instructive than any which Denver has ever before witnessed. It recalled the days of Judaism, when in fulfilment of the prophetices, Solomon, the wisest and most magnificent Jewish kings, constructed the most gorgeous of temples in which the worship of God was ever celebrated, one stone of which was not left upon another by the furious Roman soldiert under Titus; it recalled the Roman empire and the days of the imperial rulers, who wast down at last before the tide of barbarit invasion; it recalled the dark ages when ignorance and superstition held despotic sway over Europe; it recalled the days of shipping and the crusades, when the red criss of the Templar led the hosts of Christendom back to the plains of Pales tine, and his sword crossed with the sabre of the Sardeer in mortal combat for the possession of ferrestem; it recalled the awakening of the world to a new life, the dawn of modern civilization, the discovery of America; the rise of the new republic, the progress of the pioneer westward, upil yesterday masonry laid the corner stode of a new temple in this city of the plains and the mountains. As it marched yesterday through Denver's streets, so has it marched down through the ages, with the dignity of centuries inpressed upon its brow, the hope and courage and faith of the untold future stamped upon its features, and giving promise of better days to come in which shall be recognized the universal brother-hood of man.

Recognizing the importance of yesterday's

ood of man. Recognizing the importance of yesterday's event, the News congratulates the entire order on the success which attended the cere-monies, and on the evidence which it gives of the growth, and power and wealth and prosperity of masonry in the Rocky mountains. It also congratulates Denver on having been chosen as the site of this temple of the order, which combines in itself so much that is ancient, so much that is honorable, so much that is good and charitable and upright in man. The temple that King Solomon built has been destroyed, and the mold of centuries hides its foundations. ti ons, but Masonry has flashed down through the ages to light up the present, and place its imprint upon Denver's growth. May the granite corner-stone laid yesterday rest as firm as the mountains from which it was taken, illustrating in its permanence the continued existence of the order until the

The Masons of New York have proved their financial ability, and are about to cele brate publicly. Says the New York Sun: The Masonic fraternity of this state is arranging a monster celebration in commen-oration of the lifting of the big debt from the Masonic hall and the asylum. Every penny of the debt, which, at one time, amounted to over \$1,500,000, has been paid, and there is much joy among Masons in this state. The date of the jubilee has been

fixed for April 24.
Grand Secretary Ehlers, in a letter to the various lodges of the craft, says: "Upon the evening of that day (April 24) let the brethren throughout the state assemble, either in their usual places of meeting, or elsewhere, as may be found most convenient, and let every part of our broad juris diction echo with one universal acclaim praise and thanksgiving to the Most High! "That one and all will joyfully unite in this celebration is not for a moment to be doubted, and conceiving it impossible to devise any form of commemoration which would be applicable to the widely varying circumstances that surround the lodges in this great state, entire discretion is left to al as to the form of exercises which are to be held. It is, however, suggested that they be, as far as circumstances will permit, uniform in their character, embracing appro-priate addresses, music, and above all, the offering up of our devotions to the Giver of every good and perfect gift." The grand lodge of Masons in this city will hold its jubiles in Masonic Temple, Sixth avenue and Pwenty-third street. The pro-

avenue and Twenty-third street. The programme has not as yet been completed, but will include musical and literary talent. Among the speakers will be Rev. Robert Collyer, of the Church of the Messiah, one of the three grand chaplains of Masons in this state, who will deliver the oration. Frank R. Lawrence, grand master of Masons of New York state, will also make an address on the great work accomplished. George Washburn Morgan, the grand lodge organist, will also be on hand to delight music lovers. For those who will want a sovenir of the jubilee the grand lodge has caused to be struck off 2,000 bronzs commemoration medals. On one side appears the coat of arms of the Grand Lodge, with the legend "Holiness to the Lord." On the reverse, within a circle reading "The band of the Lord hath wrought this," is the macription "To commemorate the freedom of the coaft from debt, 1889, M. W. Frank R. Lawrence being Grand Master."

Brooklyn Masons also expect to have a monster time in the Academy of Music in that city.

Silentia of Birmingham, Conn., writes the New York Sun as follows: George Blake-man was born October 10, 1799; was made Master Mason in King Hiram lodge No. 13 Derby, Conn., March 26, 1821; was secretary of the lodge in 1822, and worshipful master in 1827. Royal Arch Mason in Solomon chapter No. 3, Royal Arch Masons, Derby, March 20, 1822, and at the election of officers the following December was elected to the office of Royal Arch captain. The Arapahoe lodge is a strong organization in a good financial condition. - RAILWAY NEWS. The Union Pacific Sustained. In the issue between the Union Pacific and Northern Pacific on passenger traffic to points on Puget sound, a full account of which has been published in THE BEE, the Union Pacific has at length come out victorsous. It will be remembered that the Northern Pacific filed a protest with the transcontinental association, alleging that the Union Pacific solicited connecting lines on the east to route their traffic for Puget sound over that road. In its action, the officials of the Union Pacific maintained that they are not infracting the trans-continental igreement and remained firm. Yesterday, the lines forming the Western States Passenger association, put tickets on sale to Puget sound points via the Union Pacific. When the lines, composing the body of arbitrators, consent to this action of the Union Pacific, is sustained and the controversy is virtually brought to a close. The Union Pacific officers are jubilant over the outcome.

The "Leading Official." The report in THE BEE to the effect that the Union Pacific would do but little, if any, work in the line of construction, bailasting and improvements, is confirmed by Vice-President Holcomb. The "leading official" cited as authority, in a morning paper, turns out to be conductor of the elevator at headquarters. The report of THE BEE was founded on official information, and is per-

On the latter a freight car containing emigrant movable and five boomers was pulled out billed for Guthric and eleven boomers were wheeled away on this morning's passenger train.

Another Vestibule Train. On Tuesday next the Union Pacific wil have its vestibule train ready for service between Chicago and Denver. The cars have been remodeled at the shops in this city and Tuesday the train will come out in royal splendor. This will be used in the combination service on the Northwestern. Hailroad Notes.

General Purchasing Agent McKibben, of the Union Pacific, has gone to St. Paul and points in Minnesota on important business. Superintendent Thompson, of the Burlington, has issued an order making Bellevue rifle range, hereafter, a flag station for trains Nos. 5. 6, 9 and 10.

Mr. Newman Erb, general manager of the Kansas City, Wyandotte & Northwestern is in the city on his special car "Magnolia." He is on his way from St. Paul to Kansas City.

One of the prettiest novelties noted in long time was seen recently in the form of a gold scarfpin representing an open parasol, with a fringe composed of six small diamonds, which shook with every move of the wearer, and produced a striking effect.

The Poet Preacher. Rev. G. W. Crofts, pastor of the Congregational church, has written a centennial hymn, which has been published and is receiving very enthusiastic praise. The editor of the Inter-Ocean has written Mr. Crofts a personal congratulatory letter, and editorially gives prominent place to it, saying: "Those who are familiar with Mr. Crofts' work need not be told that he has thrown into his hymn the profoundest sentiment of patriotism or that he has finished it with the patriotism or that he has finished it with the care of the poet in love with his theme. The music is by Prof. Towner, who has succeeded admirably in producing a composition striking for simplicity and beauty." The hymn will probably be sung at the centennial of Washington's linauguration, a union service being arranged here for that day.

A report was published in a morning paper yesterday, to the effect that Surperintenden Rothert was in favor of moving the deaf and dumb institute to Des Moines. That gentleman denied the report and brands it as a faischood without the slightest foundation. Said he, "While in the senate I favored such a move, but now, with all our recent improvements, it would be very foolish, and I should strenuously oppose it." The routine business of the presbytery

was finished up yesterday morning, and many of the delegates devoted the early part of the afternoon to looking about the city. At 4:30 carriages met the delegates at the Presbyterian church, and the whole party was driven out to the grounds of the Chau tauqua assembly. When to Feed Hogs. Most of us make a mistake by feedin at the wrong end of the hog's existence. says the Rural New Yorker. We don't get down to business in the way of feeding until a month or two before we sell him for pork. This is all wrong. The main secret is in giving the piggy a good send-off during the first two or three months of his existence. During the first week of a pig's life it is quite important to feed the sow so as not to start too great a flow of milk, a handful of shorts twice a day in less than half a pailful of warm water being the best
